

OUTA SPACE?
GET THE KIT OF THE OUTER SPACE HIT

EXERION™

EXERION™

... is a futuristic world of brilliant colors and imaginative creatures. It's formations of alien birds, bats and winged beasts that must be destroyed by the fighter ship in fierce outer space combat. It's bonus challenges and feats of flight and daring. It's non-stop action, excitement... and profit... all in a universal conversion kit!

Using the rapid fire gun too often means losing charges which can be re-energized only by on-target shooting with the dual space cannons. The larger-than-life mutant space birds, genetically bred by the Exerions and on the attack with heat-seeking missiles, take eight hits to be destroyed... and take on a bright rainbow of changing colors when hit! And the EXERION adventure becomes more and more challenging as play continues!

In a priced-right universal conversion kit that can turn your space-takers into money-makers, EXERION is the perfect "space" game for your location!
